

NEW PRODUCT RELEASE

Portable Lithium Battery Pack

AN ESSENTIAL FOR ANY ADVENTURER

The new DT4x4 portable lithium battery pack is the complete campsite solution. With 1,512Wh of capacity and a 2,400W 240VAC inverter output, you can run anything you need while travelling off the grid. Charge the unit any way you want either through the Turbo boost on 240VAC, DC-DC, Solar or from the cigarette lighter in your car.

Want to monitor or turn on appliances from the comfort of your chair? The unit has you covered with an easy to use app, the app also allows automatic Wi-Fi updates meaning you will always have the latest version.

The DT4x4 portable lithium battery pack has an easy-to-read colour touch screen, allowing you to see battery capacity, time to empty & what circuits are being used.

Power your fridges, induction cookers, coffee machines or just use it to power up lights or charge your phone, the DT4x4 lithium battery pack is versatile for all your camping power needs.

Need more power? You can join 2 of our DT4x4 lithium battery packs together to double the capacity.

Check out the new DT4x4 lithium power pack today.

DT-021200

SPECIFICATIONS	
• LiFePO4 1,512Wh Battery Capacity (97Ah)	• 3x 240VAC output points
• 2400W Inverter with 3600W surge output	• 240VAC input charger
• Colour touch screen	• 2x 18W USB outputs
• Wireless App monitoring and control functionality	• 2x USB-C 18W outputs
• Smart BMS with 3000W Turbo Boost charge on 240VAC	• 2x USB-C 100W outputs
• UL94-V0 Protection	• 1x 10A Power socket output
• Over Air Updates	• 2x DC5525 8A outputs
• Fusion Mode allows dual unit capacity	• 15.2kg
• 15A DC input via DC-DC, Solar or cigarette lighter	• 425 x 214 x 240mm (LxWxH)
• Accepts up to 600W/40V of Solar (300W @ 24V)
